

NOT TODAY

THE 60-DAY PLAN • NO SCREENS IN THE HOUSE • ONE DECISION A DAY

This is a **contract**, not a **vow**. Vows are made to yourself at midnight and broken at midnight. Contracts are made to another person in daylight and enforced by architecture. For 20 years the war was hourly — a thousand decisions in the dark. This plan replaces all of them with **one decision a day, made at the door, when you are strong**:

“IS THIS A SCREEN? THEN IT DOES NOT CROSS THIS DOOR.”

THE 3 LAWS

- 1 • **NO VOWS. ONLY TODAY.** No “never again,” no streak worship. A slip is data, not death. Only quitting is failure. Every morning: *not today*.
- 2 • **NEVER MISS TWICE.** One slip is a data point. Two in a row is a collapse. The gap between slip #1 and slip #2 is where this war is won.
- 3 • **NO SECRECY.** One human knows everything, every day. The nightly check-in is not optional — not after a good day, not after a slip. *Especially* after a slip.

THE CONTRACT

1. For **60 days**, no screen device — phone, laptop, tablet, anything with a browser — crosses the door of my house. Day 1 is the first full day after signing.
2. **A slip is not a reset.** If a device crosses the door, I remove it, I text my witness that night, and the clock keeps running. Only quitting is failure.
3. The only devices allowed inside: a **dumb phone** (calls + texts only), a speaker/radio, an alarm clock. That is the complete list.
4. My smartphone and laptop live at the office — locker or desk — **not in my car, not in my house.**
5. Every night, one line to my witness: “Day __, *clean*” or “*Slipped, back on it.*”
6. On Day 61, the re-entry rules (page 3) become permanent house law.

SIGNED (me) — in daylight, not at midnight

DATE

WITNESSED BY — holds my keys, gets one line every night

DATE

WITNESS’S JOB: hold the phone passcodes/PIN. Receive one line every night. If the check-in stops for 48 hours, you call. That is the entire job.

DEVICE PROTOCOL

SMARTPHONE — the office vault

- Lives at the office. Wakes there, sleeps there. **Never rides home, not even in the car.**
- **9:00 am trade check:** on the **laptop** (kite.zerodha.com — full trading). Phone supplies the OTP for 60 seconds, in daylight. Your danger window is 9:30 pm–2 am. They never meet.
- Armor it anyway: *iPhone* → Screen Time → Content & Privacy Restrictions → Web Content → **Allowed Websites Only** (broker/bank/work only) → Screen Time passcode → **witness holds it.** *Android* → Private DNS (nextdns.io, block “Porn”+“Dating”) → delete all browsers → parental PIN → witness holds it.
- Delete the pipelines: any app whose feed ever led you in.

DUMB PHONE — the only house phone

- ₹1,200–1,500 Nokia-style. Calls, SMS, torch, radio. **No browser. No video. No capability.**
- Carries the nightly check-in, family calls, emergencies. You are never unreachable.
- Charges in the kitchen. Never the bedroom.
- **Apple Watch:** by day only (cellular, standalone); off at 9:30 pm, kitchen. Never a tether for the phone.

BOOKINGS & PAYMENTS — before 9 pm

- Swiggy, UPI, bills, bookings: all done **in daylight, outside the house**. If it can’t be done before 9 pm, it doesn’t happen that day.
- Dinner is cooked, ordered, or carried in before the door closes behind you.
- You are a man who plans his evening in the afternoon. That habit is part of the cure.

THE EVENING TIMETABLE – EVERY DAY, NO EXCEPTIONS

TIME	ACTION
Office ends	Straight to the gym. Never home first. The route passes through it.
7:30–8:30	Workout, hard enough to breathe. Medicine, not fitness. Non-negotiable.
8:30–9:15	Cook. Eat slowly. Shower. No screens exist here.
9:15–9:30	Check-in text to witness — from the dumb phone. “Day __, clean.”
9:30–10:15	Read a physical book. Stretch. Write. Walk around the block. Offline, all of it.
10:30	Lights out. The alarm clock wakes you.

THE WHOLE NIGHT IS DECIDED BEFORE YOU GET HOME. You don’t resist urges at midnight — you made them impossible at 6 pm when the phone stayed at the office. The dangerous window (9:30 pm–2 am) now contains nothing that can hurt you.

THE URGE DRILL – MEMORIZE THIS

Urges are waves: they rise, peak in **15–30 minutes**, and **crash on their own** — whether you act or not. Don’t fight them. Watch them pass.

1. **NAME IT:** “This is the urge. Dopamine asking. It peaks in minutes and dies. I don’t have to obey it.”
2. **SURF IT:** don’t fight, don’t obey — *observe*. Locate it in the body. Breathe through the peak. Suppression makes it stronger; watching kills it.
3. **MOVE:** 20 pushups. Cold water on the face. Walk out of the room. Motion ends the wave.
4. **FIRE THE IF-THEN:** the pre-written handler below. No decision. No negotiation.

Pre-Written IF-THEN Plans (tape on desk, fridge, car dashboard)

IF urge at the desk → THEN close everything, 20 pushups, 5-minute walk outside.
IF urge after 9 pm → THEN keys in hand, 10-minute drive, call your witness from the car.
IF urge from stress or boredom → THEN call or walk — never touch a screen.
IF hand reaches for any screen after 9 pm → THEN stand up and leave the room. Instantly.
IF weekend night alone and restless → THEN gym, or a long drive with an audiobook. Never the couch.
IF lying in bed awake and the mind starts spinning → THEN stand up NOW. Cold water, 20 pushups, book until sleepy. Bed = sleep only.

THE SLIP PROTOCOL – PRE-WRITTEN, BECAUSE SLIPS WILL COME

A slip is a **data point**, not a verdict. The relapse only begins if you add shame, secrecy, or a second slip on top of it.

1. **NO OATH. NO DRAMA.** The 60-day clock keeps running. Only quitting is failure.
2. **3-LINE LOG:** time, mood, what happened 10 minutes before. Data, not confession.
3. **PHYSICALLY LEAVE.** Shower. Walk. Move the body out of the scene.
4. **BACK ON THE RUN THE SAME DAY.**
5. **TELL THE WITNESS TONIGHT:** “Slipped. Back on it.”
6. **NEVER MISS TWICE.** The first slip is a lesson. The second is the relapse. Keep them apart.

THE 60-DAY TERRAIN – WHAT TO EXPECT

DAYS	WHAT’S HAPPENING	YOUR JOB
1–14 Withdrawal	Urges peak. Restlessness, racing mind, trouble sleeping. Boredom is loud.	Follow the timetable mechanically. Win each day.
15–30 The Flatline	Numbness, low mood, “this isn’t working.”	This is recovery, not failure. Fill the void: workouts, sunlight, cooking, humans.
31–45 Recalibration	Urges weaken. Real things — food, workouts, people — feel good again. Sleep deepens.	3–4 hard workouts/week. One in-person human contact/week, minimum.
46–60 The Shift	You stop being “a man quitting” and become “a man who doesn’t.”	Keep the architecture. The structure did this — not your mood.

THE FUEL LINE – YOU LIVE ALONE, SO BUILD HUMANS IN

- **Daily:** one phone call, 10 minutes minimum, to a real human. Scheduled. A voice is the antidote to a screen.
- **Weekly:** one in-person meeting — dinner, chai, a drive. Non-negotiable.
- **One group:** gym class, running club, badminton, trek group. You don’t need friends — you need **scheduled humans**.

DAY 61 – THE STAGED RE-ENTRY (DECIDED BEFORE DAY 1)

PERMANENT HOUSE LAWS – FROM DAY 61 ONWARD

1. **Days 61–90:** phone may come home — **only inside the timed lockbox** (Kitchen Safe: timer, no override). Laptop only for daylight work, at a table. Never the bedroom.
2. **Forever:** no screen ever crosses into the bedroom. That room is the scene of 20 years of losses. It stays sealed.
3. **Forever:** after 9:30 pm the house has no screens. Not a 60-day experiment — the permanent design of a sane life.
4. **Forever:** the nightly check-in continues. The dumb phone stays. A man who needs no witness is a man in danger.

THE PENAL CODE – PRE-AGREED, PAID IN DISTANCE, NEVER IN SHAME

BASE: 100 KM CYCLE. Every violation starts there and climbs.

- 1 • Device crosses the door (any connection) → **100 km cycle** (+50 km per extra hour; +100 per extra hour after 9:30).
- 2 • Device used inside the house → **200 km cycle**.
- 3 • Device in bedroom / after 9:30 → **300 km cycle**.
- 4 • Faked exception / lying / guard off / WiFi re-enabled → **400 km cycle** + no exceptions for 30 days.
- 5 • Never-miss-twice broken (2 slips in 7 days) → **500 km cycle** that week + voice call every night ×7.
- 6 • Blocked-site session (DNS) → **20 km cycle per 15-min burst**.
- 7 • Unpaid after 48h → **doubles**. No proof by deadline → doubles again.

Paid by cycle, walk, run or swim — outdoors, verified. 2 km cycle = 1 km walk/run · 1 km swim = 4. Proof to your witness. **Never punished with: self-hate, a reset clock, new oaths, or public posting.**

EXCEPTIONS (forced only, never chosen): illness · emergency · lockdown · festival closure · critical work. Protocol: witness told, device in bag, daylight-only, ends when the force ends. Faked exception = lying = **400 km cycle**.

THE CLOSING TRUTH – READ THIS WHEN IT GETS HARD

For 20 years you fought with oaths, and oaths demand strength at midnight — alone, in the dark, against a brain trained for two decades to want this. You were not weak. **You were outmatched by the arena. This plan changes the arena.** One decision a day, in daylight, at a door: *is this a screen? Then it stays outside.* You can win one decision.

The first week will feel rough — restless, bored, sure this is pointless. That feeling is 20 years of wiring coming loose. It passes. When a slip comes: no oath, three lines, out of the room, back the same day, one honest text. **Never miss twice.**

“I do not need to win 60 days.
I need to win today.
Tomorrow, I will win tomorrow.
NOT TODAY.”
